MySQL Comments

‹ Previous Next ›

MySQL Comments

SHARE

Comments are used to explain SQL code, or to temporarily prevent execution of SQL code (for debugging).

Comments are ignored by the database engine.

MySQL supports single-line comments `--`, and multi-line comments `/* */`.

Note: MySQL **requires** a space after the second dash in a single-line comment!

MySQL Single-line Comments

Single-line comments start with `--` and continue to the end of line.

Any text after `--` and to the end of the line will be ignored.

. CSS JAVASCRIPT SQL PYTHON JAVA PHP C C++ C# AWS

```
-- Selects all German customers
SELECT * FROM Customers
WHERE Country = 'Germany';
```

Try it Yourself »

The following example uses a single-line comment to comment away the end of a line:

Example

```
SELECT * FROM Customers -- WHERE City='Berlin';
```

Try it Yourself »

The following example uses a single-line comment to temporarily prevent execution of an SQL statement:

Example

```
-- SELECT * FROM Customers;
SELECT * FROM Products;
```

Try it Yourself »

MySQL Multi-line Comments

Multi-line comments start with `/*` and end with `*/`.

Any text between `/*` and `*/` will be ignored.

The following example uses a multi-line comment as an explanation:

Example

```
/* Selects all German customers
from Berlin */
SELECT * FROM Customers
WHERE Country = 'Germany' AND City = 'Berlin';
```

Try it Yourself »

The following example uses a multi-line comment to ignore many SQL statements:

Example

```
/*SELECT * FROM Customers;
SELECT * FROM Products;
SELECT * FROM Orders;
```

Try it Yourself »

To ignore just a part of an SQL code, you can also use multi-line comment:

Example

```
SELECT CustomerName, /*City,*/ Country FROM Customers;
```

Try it Yourself »

The following example uses a multi-line comment to ignore part of an SQL statement:

Example

```
SELECT * FROM Customers WHERE (CustomerName LIKE 'L%'
OR CustomerName LIKE 'R%' /*OR CustomerName LIKE 'S%'
OR CustomerName LIKE 'T%'*/ OR CustomerName LIKE 'W%')
AND Country='USA'
ORDER BY CustomerName;
```

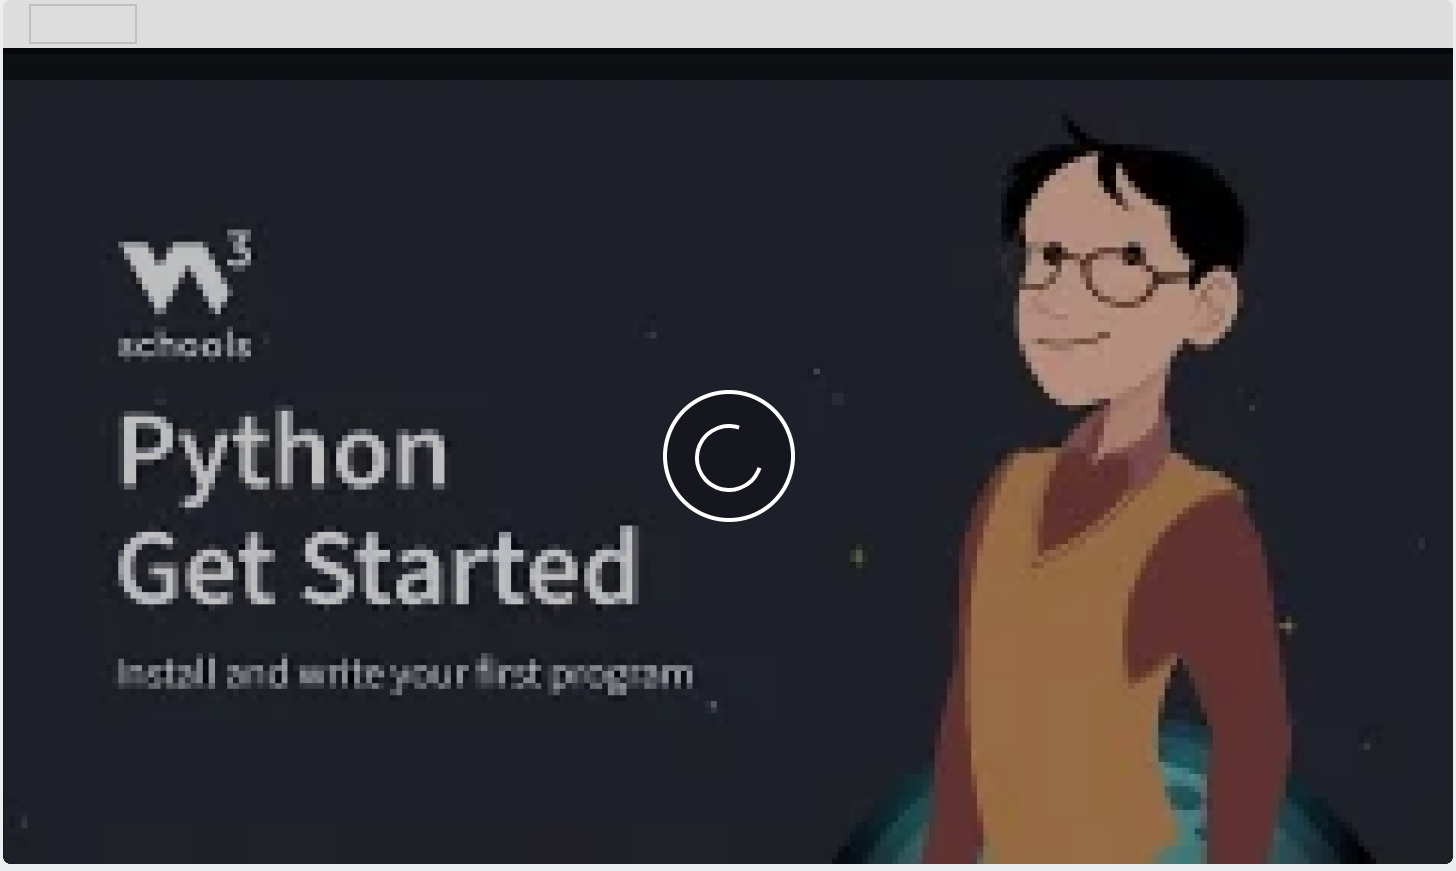

Try it Yourself »
