React Submit Forms

‹ Previous Next ›

Submitting Forms

SHARE

You can control the submit action by adding an event handler in the `onSubmit` attribute for the `<form>`:

Example:

Get your own React.js Server

Add a submit button and an event handler in the `onSubmit` attribute:

```
import { useState } from 'react';
import { createRoot } from 'react-dom/client';

function MyForm() {
  const [name, setName] = useState("");

  function handleChange(e) {
```

```
    e.preventDefault();
    alert(name);
  }

  return (
    <form onSubmit={handleSubmit}>
      <label>Enter your name:
        <input
          type="text"
          value={name}
          onChange={handleChange}
        />
      </label>
      <input type="submit" />
    </form>
  )
}

createRoot(document.getElementById('root')).render(
  <MyForm />
);
```
